# IPNSIG 2025 Board Election Form

## 2025 Internet Society Interplanetary Chapter Online Election

**DEADLINE: January 29, 2025**

The goal of this election is to replace board members whose terms are expiring.

Download the *Candidate Information* document [here](#).  
View the IPNSIG Election Rules and Timeline [here](#).

We will be electing seven candidates for seven Board positions. Every candidate will be elected to the Board. However, the number of votes each candidate receives will determine the term length assigned to them (candidates receiving the most votes will be assigned the longest terms). Terms vary in length from one year to three years.

You will notice that the ballot form will allow you to vote for a maximum of five candidates. This is for two purposes: 1) to introduce variation into the election results (since we will be assigning term lengths based upon votes received-- some variation is desirable); 2) most importantly, it signifies preference-- and we want the term length assignments to be based as much as possible upon members' preference.
